

Feather River.....

The Feather River is one of California's best kept secrets. The Feather is an awesome steelhead fishery. The tail water begins below the Oroville Dam and holds both hatchery and wild fish. This stretch of river is called the Low Flow section and the fishing can be fantastic.

Hooking six or more fish in one trip is not uncommon. Steelies in the eight pound range are possible. The Feather River has two basic runs. The winter fish start to appear late in the summer and continue to pack into the river into fall. During this time, the egg drop is on and the steelies are in prime shape.

The spring run arrives in early March and continues into June. These fish are hot and wild, as they act like larger trout eating nymphs and taking dries. We use 5-wt rods with floating lines. The fishing is easy, fun and on most days you have the river virtually to yourself.

Fly Fishing is our Passion

“Fly Fishing is our Passion” – That's the cornerstone and slogan for our family-owned and operated company. Lance Gray & Company is a full-service outfitter that offers our guests the best fly-fishing experience possible. Every excursion is much more than just a drift down the Sacramento River or an evening of fishing the "Hex" hatch on Lake Almanor. It's an experience that our guests talk about for years. We offer guided drift-boats trips, stillwater venues, fly-fishing schools, fly-fishing workshops, fly-fishing tours and worldwide travel. We pride ourselves on service, attention to detail, honesty and plain hard work.

Fly fishing is truly our passion
